

Crossing the Street

The same four steps, every single time

1

STOP AT THE CURB

Both feet stop before the road

2

LOOK LEFT, RIGHT, LEFT

All three, in that order

3

LISTEN

Engines you cannot see yet

4

WALK — DO NOT RUN

Keep looking while you cross

Even when someone else goes:

You still do all four steps yourself.

A green light is not the same as an empty road.
